The Boat

The BALI 4.2 Open Space represents the evo-lution of the species, refining the design fea-tures of the previous models and offering new cutting-edge design solutions. The large lounge has a tilting back door, making it a multifunctional space. The external cockpit has been moved forward, offering improved comfort both during navigation and at anchor. The real novelty is the door that joins the two spaces. Large sunbathing areas are located at the bow and on the flybridge, offering plenty of choice in terms of panoramas to enjoy your cruise. The sailing qualities of the Bali 4.2 have also been improved, with the sail plan in-cluding 90 square metres of sail surface.
