Outboard engine 9.9 HP (opt)	Code 0 with furler (opt)

The Boat

The BALI 4.6 is recognizable at first glance thanks to the new design of her hulls with thin and straight bows and her new very elegant lines. The BALI 4.6 ben-efits from all the innovations signed by Catana Group which are the DNA of the BALI: the rigid forward cockpit with lounge area and sunbathing areas, the platform connecting the transoms with large bench seat and lockers, the large tilt-and-tilt door and side sliding bays, a helm station with a panoramic relaxation area on the coachroof accessible from both sides, a simple and very practical davit system without forgetting the interior access door to the forward cock-pit. And of course, the safety and perfor-mance you would expect from a CATANA design!
