Overall beam	7.66 m
Keel draft	1.22 m
Total sail	122 mq
Engine	2 x Yanmar 57 HP
Fuel capacity	800 lt
Water capacity	860 lt

The Boat

The BALI 4.6 is recognizable at first glance thanks to the new design of her hulls with thin and straight bows and her new very elegant lines. The BALI 4.6 benefits from all the innovations signed by Catana Group which are the DNA of the BALI: the rigid forward cockpit with lounge area and sunbathing areas, the platform connecting the transoms with large bench seat and lockers, the large tilt-and-tilt door and side sliding bays, a helm station with a panoramic relaxation area on the coachroof accessible from both sides, a simple and very practical davit system without forgetting the interior access door to the forward cock-pit. And of course, the safety and performance you would expect from a CATANA design!

Equipment & Comfort

Battened mainsail 100%	Reinforced dacron Solent
Electric winches for mainsail and solent	Automatic first and second reef
Complete range of cushions	Autopilot
Wind instruments and VHF	Electric tender lift
Plotter GPS	Inverter 12/230V 2000W
