# Captain's profile

**Ante** was born in Šibenik and raised in a small town on the coast. During childhood he has been a passionate windsurfer and like many, he spent every coin he had on the equipment fueling that passion. Since there were no other windsurfers his age the experience can be described as solo sailing. Because of this he developed early love for the sea and the good habits of care. This passion led him towards maritime industry, high school and later colleague of maritime studies in Split. In 2006 he started his first full time job at sailing school Adriatic Nautical Academy.

Working as an sailing instructor gave him meaning and fulfillment and: „I must say that I dream of a day when I will save enough to go back to that dream job“ He skippered hundreds of races, been involved in sailing accidents and adverse weather conditions, he had zero trainee or a guest injuries and zero complaints. He likes to think its because there is a meaning for everything and for him it is meant to sail.

He is the permanent skipper of R&C Leopard 50 "Lady Amanda", and it will be his honor and pleasure to make your sailing trip a safe and meaningful one.
