Italian design without compromise

The Sessa Marine F48 is the newest generation of luxury flybridge yachts, combining contemporary Italian styling with exceptional performance and comfort. Every detail has been carefully designed to deliver effortless cruising and unforgettable moments on the Adriatic.

A flybridge made for unforgettable days

Spacious, elegant and perfectly equipped, the flybridge is the social heart of Supernova. Lounge seating, sunbeds, a folding dining table and barbecue create the perfect setting for relaxed breakfasts, sunset cocktails or evenings under the stars.

Light, space and panoramic views

The interior of the F48 is a harmony of light and space. Large panoramic windows, premium materials and an open-plan salon with a fully equipped galley create a sophisticated atmosphere that feels bright, modern and welcoming throughout the day.

Luxury that feels like home

The full-beam owner's cabin offers generous space, elegant finishes and exceptional comfort. Soft lighting, refined materials and large hull windows create a peaceful retreat where every night feels like a stay in a boutique hotel.

Comfort for every guest

The forward VIP cabin and guest cabin continue the yacht's modern Italian design with bright interiors, premium finishes and carefully designed storage. Every guest enjoys privacy, comfort and a relaxing atmosphere throughout the journey.

Beautifully designed in every detail

The bathrooms combine clean contemporary styling with practical comfort. Spacious showers, elegant finishes and thoughtful design complete the luxury experience, making life on board effortless and relaxing.

The perfect connection with the sea

The aft cockpit extends the living space outdoors with comfortable seating and seamless access to the hydraulic swimming platform. Whether enjoying breakfast by the water, relaxing after a swim or dining at anchor, this space is designed for every moment of the day.

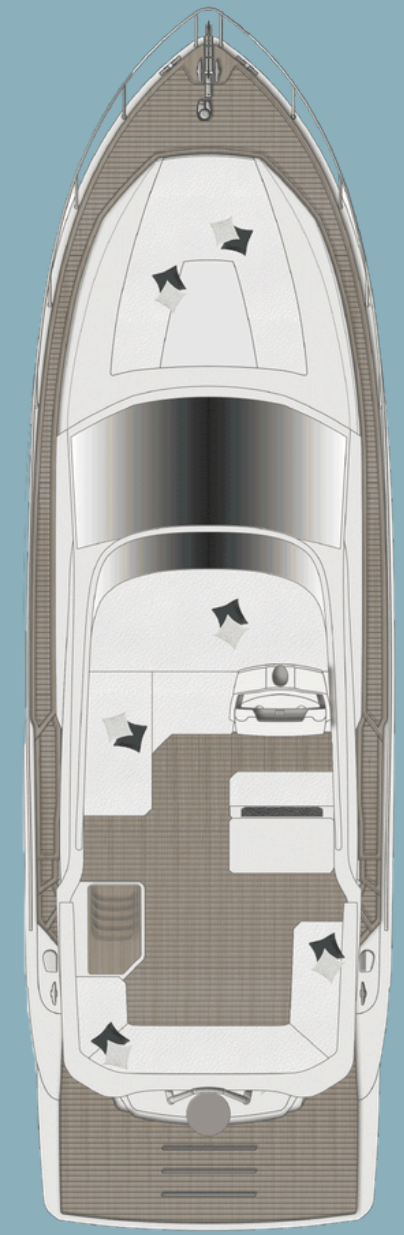

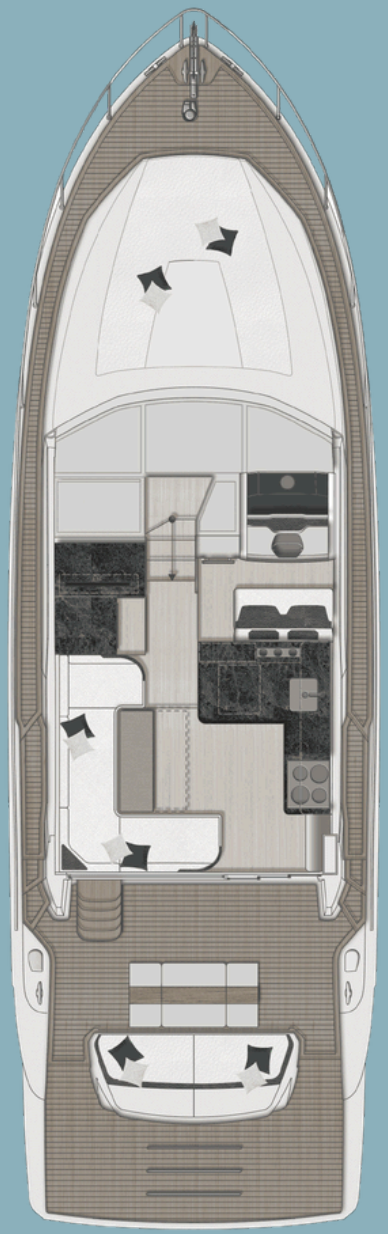

Where your journey begins

Cruise the Adriatic from our home base at D-Marin Mandalina in Šibenik, perfectly positioned between Zadar and Split airports. An ideal starting point for discovering the Šibenik archipelago and Kornati Islands, then cruising south towards Vis, Hvar and Korčula, with countless hidden gems to explore along the Dalmatian coast.
