1 Cabin Suite owner version
2 Double Cabins
2 Separate cabins

# DESCRIPTION

*The Bali 4.2 “Le Noly”, built in 2024, is a modern catamaran designed to offer maximum comfort, spaciousness, and ease of navigation. Its configuration of 3 cabins + forward cabins corresponds to the Owner version, which stands out for a large owner’s suite that occupies an entire hull, providing privacy and a living space superior to the standards of its category.*

*The two additional double cabins, each with its own private bathroom, ensure comfort for the rest of the passengers. This design, combined with Bali’s characteristic open saloon, creates a bright, airy, and highly functional environment, ideal for crossings, family vacations, and extended stays on board.*
