**Upon your return, before entering Lefkas Marina, you should first refill the fuel tank at Lefkas Marina fuel station.**
For more information, please ask the Base Manager. Once you are done refueling, you can enter the marina, our staff will be waiting for you where the yacht was moored on the day you departed from the marina.

If during your trip you notice any sort of problem or malfunction of the yacht, we would be very grateful if you could advise our staff. It is essential to maintaining a high quality fleet of yachts for you, that you provide us with any remarks regarding the function and the condition of our vessels, even minor ones, as we believe that detail makes the difference.

During check-out you are kindly asked to allow our staff to come aboard and inspect the yacht and her equipment; your presence is not mandatory so you will not be wasting any time on this. This inspection is detailed, as we need to assure that the yacht will be in perfect condition, not lacking any inventory, for the following clients chartering her after you. After every charter, the yacht is also inspected underwater by the diver so as to avoid any inconvenience.

## Typical itineraries

The Ionian Islands of Greece is a group of 7 principal islands - Corfu is the biggest one, known also for being most cosmopolitan of all. Over the course of their long history, the islands have been occupied by the Italian, the French and the English. A mixture of different civilizations and cultures is harmoniously blended together into one piecethat is un- doubtedly Greek in character, making this area truly unique compared to any other area of Greece.The green luxuriance of the islands is in direct contrast to the high mountains of Albania and the mainland of Greece.

Known for mild winds during the summer, the Ionian is a sailing playground ideal for smooth sailing and family vaca- tion, featuring endless possibilities for visits to isolated bays of unique beauty - only Lefkas island itself is full of tranquil isolated bays! Between May and August northern winds prevail, whereas in September, October and April southern winds blow mainly between 14:00-19:00 in the afternoon - during the night there is usually a completecalm. Common wind speed is 12-16 kts but during the summer it can sometimes reach 20-25 kts.
From Lefkas you can visit Fiscardo and Agia Effimia at Cephalonia Island, Ithaki island, Zakynthos island as well as Porto Leone bay at Kalamos island. If you have 2 weeks to enjoy you can combine sailing to Parga, Meganisi island, Paxos and Antipaxi island and of course the cosmopolitan island of Corfu, full of magnificent buildings of unique archi- tectural interest and a very vivid nightlife.
