

Our Boat – Your Home

Beneteau Oceanis 35

Your home at sea, our Beneteau Oceanis 35 is the most luxurious yacht in the class. To make your holiday an unforgettable one we welcome max. 4 guests on board.

Design is inspired by IMOCA ocean racers. She is very wide, stable and spacious. Another advantage of such a concept is bigger interior and exterior volume.

At the stern, there is a folding swimming platform, elongating already big cockpit, providing easy access to the sea.

Unique feature of our yacht is a cockpit hard top with portholes which is providing much better protection from the elements than classical tent bimini.

The Cockpit

The place to be when on a sailing boat where all the action takes place! Here you can join Captain Dino on the helm, hear his stories and learn a few tricks about sailing. Or just sit, relax and enjoy in the beautiful scenery.

Sailing

Yacht architect studio Fimot-Conq designed the Oceanis 35 as comfortable cruising yacht with ocean racer DNA. This means very wide hull with two rudder bladders, flat bottom at the back and lot of volume in the front, to avoid pitchpoling when downwind.

Benefits are clear - much more stability, speed and safety. She can carry more sails being faster without sacrificing guests comfort by leaning too much. Planning downwind ability is not just fun but also a big safety feature, avoiding violent waves splashing on the boat.

Matching speed of the weather or even being faster is the way how ocean racers manage to survive in tough weather.

Charter boats are not made for racing, most of them are even underpowered. The standard trim is forcing crews to motor most of the time especially in the summer when winds are lighter. To avoid that we improved our Beneteau adding Code 0 and asymmetrical spinnaker sails. This increases our sailing time percentage radically. We believe that sailing boat should sail and to achieve it bigger sails are needed in lighter winds.

When Mother Nature decide to refuse moving air, we have a reliable Yanmar engine to bring us to desired destination.

The Living Area

When you enter the saloon you will be impressed by the light and airy atmosphere created by the modern interior design and big portholes and windows.

On the port side there is a comfortable seating bench and dining table as well as captain's navigation desk. On the starboard is a house style galley where Marlies will prepare delicious breakfast and lunch for you.

Your Cabin

Our Beneteau offers 2 double bed cabins. Each cabin is equipped with bright wood cabinets for your belongings and extra wide bed of 1.50 x 2.00 m.

A porthole and 2 windows provide light and good airflow. For your comfort every cabin has a 220V AC outlet.

The Bathroom / Toilet

On the starboard side is a guests dedicated head (toilet) and shower very smartly designed offering a lot in a relatively small space.

During your stay on board we provide a whole set of bathroom and beach towels free of charge.
